

PRESS RELEASE

SpineSource® Awarded as Top Spinal Implant Distributor Worldwide for Second Consecutive Year

November 8, 2011

ST. LOUIS, MO –**SpineSource®** has been awarded Top Distributor Worldwide by Advanced Medical Technologies AG (AMT). This is the second consecutive year that SpineSource has achieved the top ranking from its main supplier, AMT.

“We are honored to have achieved this award and thank AMT for its recognition of our efforts in a very tough market,” commented SpineSource CEO Tom Mitchell. “Although the United States is the top spinal implant market worldwide and we therefore should always be AMT’s top distributor, it is good to be recognized out of the 17 other distributors AMT has across Europe and South America.”

SpineSource was also ranked top distributor worldwide by Ulrich Medical in 2004 and 2005 prior to merging with the Company to form Ulrich Medical USA in 2006. After the merger, SpineSource was re-founded in 2007 and it began distribution of AMT’s spinal implants in late 2008.

SpineSource—based in the St. Louis suburb of Chesterfield, Missouri—exclusively distributes the unique implants developed in Europe. For more information, please contact Tom Mitchell, President/CEO of SpineSource at (636) 532-9300 or visit the website at www.spinesource.net.

AMT, AG is based in Nonnweiler, Germany and manufactures spinal implant technology marketed in more than 18 countries. For more information, please contact Peter Weiland at www.amt-ag.de.
